## 20<sup>th</sup> Annual Old Fashioned Christmas Walk Tonight– November 28<sup>th</sup>.

This photo finds downtown North Bay looking very festive for the season circa 1980 at the intersection of Frasier and Main, looking east. We're not positive about the year. Does anybody want to take a guess?

Tour through the Museum tonight and enjoy:  
Free caricatures by the White Water Gallery (great gifts!)  
Chad's School of Fiddle and Dance performers from 7-8pm.  
The Toys of Christmas past exhibit  
Free hot chocolate and goodies

Suggested donation of a twoonie (\$2.00) for admission to the galleries, all proceeds to support Discovery North Bay Museum programs.

## Historic Buildings of North Bay - A visit to the beautifully restored CN Station

The municipal heritage committee met at the CN Station this week to view the newly restored building. It was a treat to tour the facility, a true landmark in the city. Congratulations to Kristine Woods and the staff of the Crisis Centre for bringing new life into a beautiful old building. Thank you to Marcus Wheeler of Evans Bertrand Hill Wheeler Architecture Inc. for the great tour!

In our area, we are very fortunate to have the original CP and CN stations and the T&NO (now ONR, Ontera) offices. Many community's lost their grand old stations before legislation prevented demolition in the form of the Heritage Railway

Stations Protection Act.

Did you know that the former CN Station is one of three buildings in North Bay with an Ontario Heritage Trust easement? These buildings include the CN Station, the CPR Station and the former normal school.

## Science North Programs at Discovery North Bay!

You don't have to drive to Sudbury to enjoy a visit to Science North! Our friends on the Science Quest team will bring the learning adventure to Discovery North Bay throughout the winter months.

Nov. 29<sup>th</sup> Flight/Aerodynamics

Enjoy visual demonstrations and hands-on activities of how the four forces of flight work to keep an airplane soaring through the sky. Afterwards, put all your newly learned information together to build your own plane and test how far it can go.

Cost Science North Members: \$10.50

Public: \$12.60

**CLICK HERE to visit the Science Quest website for information about registering your child.**
